

Soluble Embroidery Backer

HTL# HN121

Properties: Sew-in and water-soluble embroidery backing.

Application: Perfect for all kinds of machine embroidery and new creative techniques. Suitable for all fabrics and textile materials that are washable.

Advantages:

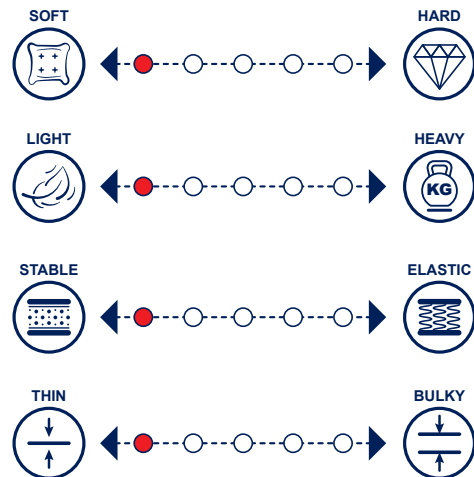

- Backing material for all machine embroidery methods
- Can be washed out without leaving a trace – even with cold water
- Excellent stabilising Properties:
- Versatile in application, e.g. for free lace embroidery, appliqués and other motifs
- For creating collages using the “pizza” and “thread” methods

Technical Data

Specification:

Width	90cm
Length	25m / roll
Packing	12rolls / ctn
Gram	40g/m2
Material	100% PVA

Properties::

Instructions

1. Place soluble backer under the fabric and mount the fabric in an embroidery hoop.
(can also be used with a layer of solufleece.)
2. Embroider the desired motif.
3. After completing your embroidery work, simply wash out the soluble backing with cold water.

IMPORTANT: Do not iron or tear off.

N.B. Always test the product on a scrap of your project's fabric.

Wash & Care Instructions
