

Standard Medium Cotton Interfacing

HTL# HN100.BK

Properties: Mediumweight fusible woven interfacing made of pure cotton.

Application: For adding stability and support to small parts such as collars and cuffs on blouses and shirts. Suitable for light - to mediumweight fabrics. Also available in white.

Advantages:

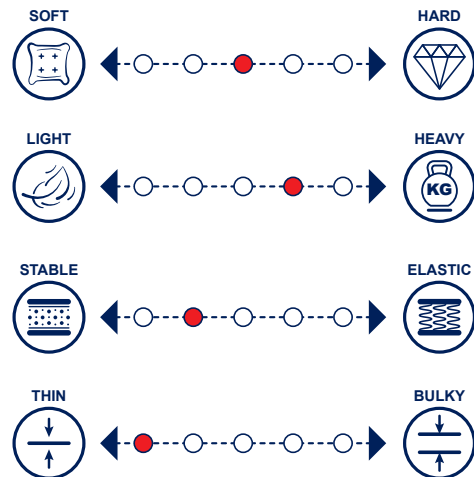

- Retains its shape
- Wash up to 60°C

Technical Data

Specification:

Width	90cm
Length	25m / roll
Packing	5rolls / ctn
Gram	90g/m2
Material	100% Cotton
Colour	Black

Properties::

Instructions

1. As with all woven interfacings, place pattern pieces carefully to follow the grain.
 2. Place the interfacing on the reverse side of the fabric with the coated side facing down, cover with a damp cloth and press iron down, hold in place for approx 10-12 seconds. Raise iron and repeat until all sections are fused in place. Do not push the iron.
 3. After fixing, lay the pieces flat to cool down for around 30 minutes to allow the bond to stabilise.
- N.B. Always test the product on a scrap of your project's fabric following steps 1-3 above.

Wash & Care Instructions
