Medium-Heavy Cotton Interfacing

HTL# HN132

4 895126 784134

IRON-ON

Properties: Woven fusible interfacing 100% cotton base, medium-heavy and stable.

Application: Ideal for stabilizing small accessories such as belts, hats, and pouches made from medium to heavy fabrics.

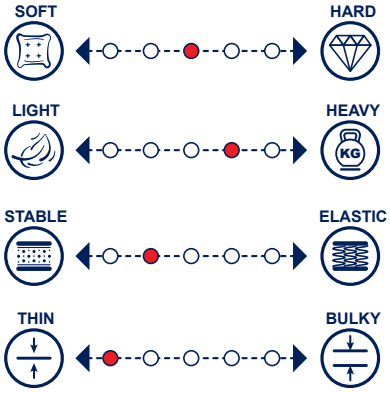

Advantages:
- Retains its shape
- Washable up to 60°C

Technical Data

Specification:

Width	110cm
Length	25m / roll
Packing	3rolls / ctn
Gram	140g/m2
Material	100% Cotton
Colour	White

Properties:

Instructions

1. As with all woven interfacings, place pattern pieces carefully to follow the grain.
2. Place the interfacing on the reverse side of the fabric with the coated side facing down. Using a dry iron, press down for around 15-18 seconds. Raise iron and repeat until all sections are fused in place.
3. After fixing, lay the pieces flat to cool down for around 30 minutes to allow the bond to stabilise. Test bond and repeat if necessary.

N.B. Always test the product on a scrap of your project's fabric following steps 2-3 above. For delicate and heat sensitive fabrics, protect with a pressing cloth.
