Dense Thermobonded Foam

HTL# HN134

4 895126 784158

IRON-ON

Properties: Double-skinned, thick and voluminous thermo-bonded foam.

Application: Perfect for adding volume to your creations, padding pouches and bags (protection for phone, tablet, and computer pouches), creating epaulettes, caps, hats, or reinforcements on all types of fabric.

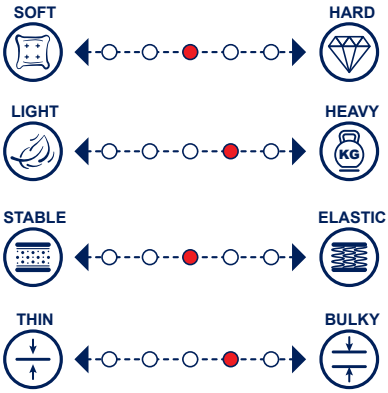

Advantages:
- Light weight
- Ideal padding for stabilising bags, clothes (e.g. shoulder pads), caps, hat etc.

Technical Data

Specification:

Width	72cm
Length	15m / roll
Packing	4rolls / ctn
Gram	290g/m2
Material	50% Polyester, 50% Polyurethane
Colour	Off-White

Properties:

Instructions

1. Lay the foam so that the coated side is facing the reverse side of the fabric.
2. On the right side of the fabric, cover with a damp cloth and press down in one place for around 10-12 seconds, lift iron and repeat, section by section, until all are fused in place.
3. After fixing, lay the pieces down flat to cool down for around 30 minutes to allow the bond to stabilise. Test bond and repeat if necessary.

N.B. Always test the product on a scrap of your project's fabric following steps 2-3 above. Always use a pressing cloth to protect the fabric.

Wash & Care Instructions

10-12 seconds
